## Reminder!

We are making every effort in this parish to build up a Christian community. A number of initiatives have been taken to achieve this. However, the most important dimension of all of this is that we make every effort to gather together at weekends. The emphasis here is on

- the Gathering itself - with our neighbours and other members of the community and
- To worship our God together.

Going to Mass is one thing and that can be done anywhere - in other Churches and other places. However, going to Mass in our own community is another thing which is very much part of the building of community.

There too we are reminded of the 'happenings' in our own community during the week and regular reminders to support the local especially at a time of recession. So we would like to encourage people to make a special effort to gather on weekends in their local Church - for example Parish Church.

The Parish Pastoral Council met during the week. A range of issues were discussed which included - Radio Masses, Reports from Sub-Groups etc. We are very fortunate in this Parish to have so many people participating in so many ways. We thank God for all that. We would like to encourage more and more of this. For example if there are people who would like to be Eucharistic Ministers, Readers, Church Carers - you are very welcome. We have heard it said "the more the merrier".

We would like to thank all those who have volunteered to become Altar Servers. If there are others please let us know before Wednesday. We will meet them all and prepare them well for the important service this is for a young person.
